Outpatient Programs

Chrysalis House believes in continuity of care. We offer two outpatient programs:

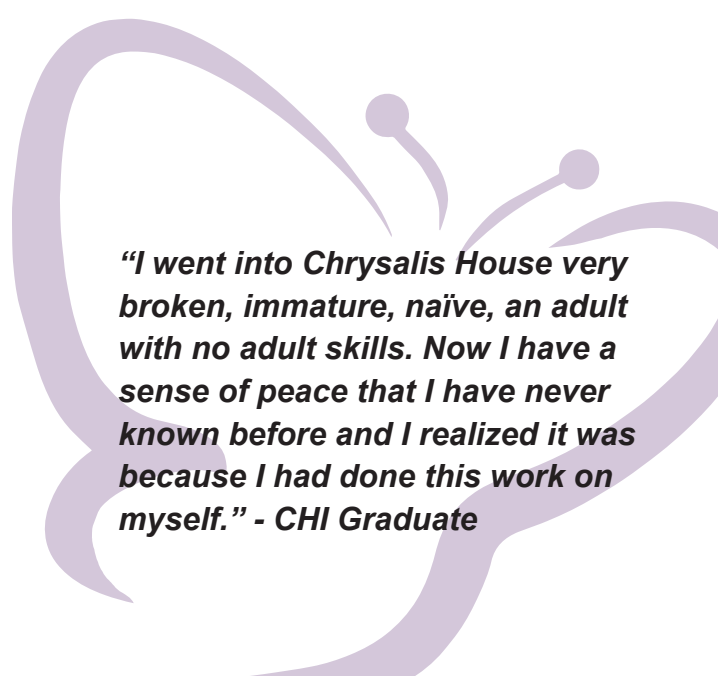

Intensive Outpatient Program (IOP) and Outpatient Program (OP). These programs continue ongoing treatment which strengthens the recovery journey.

Chrysalis House, Inc. (CHI) is one of four residential treatment centers in the state that allow women to bring their children with them, thereby removing a barrier to seeking treatment. Women with children or women without children are eligible to participate in our unique program.

"I went into Chrysalis House very broken, immature, naïve, an adult with no adult skills. Now I have a sense of peace that I have never known before and I realized it was because I had done this work on myself." - CHI Graduate
